Principal's Address

It is hard to believe I have been Principal at Duncraig Senior High School now for a year. It has definitely provided me with many challenges but I have loved my time here and look forward to many more years ahead.

This term I have visited a different class almost every day. It has given me an opportunity to see our students in action and reflect on how we can provide the best possible education. I have been thoroughly impressed at the commitment shown by our students to their learning.

We have wonderful students who really support their classmates in the learning journey and are prepared to offer help to each other when learning new concepts. I will continue to visit classes throughout the year and support our teachers with opportunities to further enhance their practice.

Term 3 is quickly coming to an end, but there is certainly a lot happening in the final weeks. Our Year 12 students will soon be finishing their courses with the ATAR students having just completed their mock exams. We wish them all the best. Our Workplace Learning students are completing their work placements for the year and all VET students are finalising their Certificate courses. In Term 4, there will be the Final School Assembly and Presentation evening to celebrate the achievements of our Year 12 cohort.

I thank leaders Darci Money and Chris Patrick for supporting all of our students and leading by example during a very disruptive year. I wish all of our Year 12's every success and assure them I am very proud of every one of them and look forward to sharing the final celebration days with them.

I wish all students and staff a restful holiday and hope some parents can share in this holiday time. I look forward to a productive and successful Term 4.

Peter Lillywhite

Principal

Hair With A Heart - Help Shave For A Difference

Our goal is to raise as much money as possible before and even after we shave our hair off. So, with utmost gratitude, we ask that please even if you have a dollar to spare it'd mean the world to us if you could help us make a difference!

To read more about our story and to donate please click here.

Duncraig Senior High School is incredibly proud of Aislinn Fischer and Jacob Tindall, two Year 12 students, who on the 16th of October will be shaving their heads to fundraise for Variety WA.

As a 10 year old girl Aislinn learnt about the autoimmune disease Alopecia Areata and vowed to herself that she would grow out her hair in order to donate, 7 year's later Aislinn's hair is now nearly 1m long! Hannah's Story shows how the hair and donations are used for beautiful wigs that promote well being and self confidence of any sufferer of Alopecia.

Jacob has turned his grief from tragically losing both parents into positive action and it all started two words ... "Fundraising Ideas". This is just the first step in Jacob's plan to make the world better and make his parents proud.

Please see the below links to the student's fundraising page. We wish them best of luck and look forward to being involved in their fundraising activities on the 16 October.

A few words from Aislinn and Jacob:

Hello, Aislinn Fischer and Jacob Tindall here!

We're the 17-year-olds crazy enough to be shaving our 1.6 meters of total hair off on the 16th of October this year! We'd love for you to be a part of a journey with us to help make a real difference in children's lives all around Australia.

We chose to donate to Variety - The Children's Charity because they provide support to a range of families and their children experiencing hardship through medical illness by providing grants, scholarships, experiences and more.

Academic Excellence & Senior School Support

Year 11 Breakfast Club Launch

More than 50 Year 11 students were inducted into the 2020 Breakfast Club on Thursday, 20th August. It was a great morning and it was our pleasure to welcome back Christian Bien (Class of 2016) as our Guest Speaker. Christian delivered a great message to our new inductees which included the following 3 main points:

- Own your story!
- Say yes to opportunities more often!

- Give back more often.

What a fantastic message. You can listen to the podcast yourself by following the link below:

Link to Christian Bien's presentation

Congratulations to all our new Breakfast Club students!

The next Breakfast Club meeting will be on Thursday, 24th September.

Gifted and Talented Education Program at Duncraig Senior High School

It is my great pleasure this year to be working with Ms Leonie Hunter (G&T/ SBAE Coordinator) to help support our G&T and SBAE students. Ms Hunter and I have been working our way through several innovative programs to support our G&T/ SBAE students from Years 7 through to 12. We will let you know more about this later.

Recently, Ms Hunter was tasked with preparing a 3-4 minute video promoting the Gifted & Talented program at Duncraig Senior High School prior to attending a conference at Central Office. Given the very short lead in time, we sprang into action and produced the following video. We hope you enjoy it! Well done to Ms Hunter and the students who helped in the production of this short video!

GIFTED AND TALENTED EDUCATION PROGRAM VIDEO

Owen Goyder

Associate Principal - Academic Excellence & Senior School Support

Excellence does not just happen. Practice. Hard!

Year 7 Coordinator Report

Term 3 has been an exciting one for the Year 7 students. They have been able to test out their skills in a new range of option classes. I've seen some super dance performances, some very cool designs in woodwork and metalwork and some real problem solving happening in IT.

The Year 7's have also been able to test out their athletic ability with their very first high school athletics carnival. Some brilliant team spirit was shown through the day with students proudly representing their house colours in clothing, accessories and even hair colour! I could see some of the students already planning their Year 12 outfits after seeing the very entertaining Year 12's costumed 100m run.

We discovered we have some very impressive athletes in our midst with students excelling across the range of events and giving the school records a run for their money.

A number of our Year 7's were part of our RUOK? Day Action Team this term. Their mission was to raise awareness of the event in our school and to design and screen print t-shirts to be worn on RUOK? Day. Ms Edwards and I were the lucky ones to support this team and we could not be prouder of their efforts. Their creativity, teamwork and dedication to the project led to top notch results.

Our form captains ran two assemblies this term and helped us to announce the winners of RACER and attendance draws. They have been working hard behind the scenes to help support their year group.

Most recently, we announced our nominees for the Junior Leadership Team. A big congratulations to the six students whose applications stood out and landed them this admirable position. The competition was fierce with nearly 40 applicants. Well done, Amelae Glossop, Amira McGee, Fiona Requejo, Indiana McGrath, Thor Sultana and Tiana Petkovic. We look forward to seeing what you achieve next term.

Nicole Pearce

Year 7 Coordinator

Year 8 Coordinator Report

This year has been a little different for our school, however the Year 8 students have taken it in their stride. They have gotten used to the new normal with plenty of handwashing, the heady scent of hand sanitiser and not being able to sit close to their friends during class. The change to online teaching and learning lead to a whole lot of excitement when they could come back and be near each other again. Who would have thought that the students would miss school so much!

Due to all the restrictions, we have been prevented from doing many of the events that we would normally do during the year, however, as the rules changed we have been able to start having short assemblies and finally a whole school athletics carnival.

Hopefully next term we will be able to do some fun activities to reward the students for all their hard work and resilience over the course of the year.

Elena Rossi

Year 8 Coordinator

Year 9 Coordinator Report

After an unprecedented Semester One, the cohort returned reinvigorated and prepared to tackle another Semester of their High School education. Over this challenging period of time, I would like to congratulate each Year 9 student for the manner in which they have committed themselves to their education. It has been great to regularly hear positive feedback from teachers who see them excel and following their passions. Keep up the good work in Term Four and continue working towards reaching your goals as learners and members of society.

Achievement Assembly

On Friday of Week 2, I was given the privilege of recognising those Year 9 students who had demonstrated Duncraig Senior High School's values of Care, Engage and Excel at the Semester One Achievement assembly. The first award recipients recognised, were the Engage Award winners. To achieve this award, students had received two or more effort certificates in their classes during Semester One, showing their dedication to reaching their potential as learners. Congratulations to the recipients of the Engage Awards, they are listed below.

Engage Award Winners		
Olivia Adams	Maria Balzarelli	Jack Castiglioni
Waiman Chen	Josie Crane	Kareem Elzohdy
Umesha Fernando	Ellie Foster	Lily Gilsenan
Holly Gray	Elizabeth Harms	Lauren Hemphill
Ebony Hughes	Chloe Hudson	Lily Jacobson
Bella Kemp	Samuel Kidd	Kiara Kifayatullah
Molly Knight	Kira Malcolm-Smith	Steven Manoharan
Ethan Mapley	Cody McAllister	Lavender Meek
Nadia Mellican	Harry Money	Aryan Patel
Leuca Patmore	Olivia Petricevich	Charlie Prentice
Toby Samiotis	Trisha Santillan	Manesh Tan
Cody Tayler-Klymovich	Demi Tunstead	Hannah Wallace
Peter Walters	Jaxon Wells	Aliyah Young-Short

I had the privilege of selecting five Year 9 students to be the recipients of the Care Awards for Semester One. Each recipient maintained a cooperative nature and enthusiastic approach to their education. They clearly embraced the school's values and their positive attitude to school makes them a valued member of the Year 9 Group. Congratulations:

Care Award Winners		
Ebony Hughes	Ashleigh Kinsella	Tayla Ellenbroek
Orion Stewart	Dylan Martin	

RACER Assembly

Term 3 also saw the return to having assemblies in person. It was rewarding to see each student together in one space celebrating the success of their peers. This assembly was organised and run by the outstanding Year 9 Form Captains. As a special thank you for all their hard work and positivity during Term 1, 2, 3 and OLNA, the Year 9's were rewarded with a sausage sizzle as they left the assembly.

Term 4 will see the return of the Inter-Form Dodgeball competition that was put on hold due to COVID-19. Good luck to each Form and may the best Form win!!

I wish all students a relaxing, refreshing and rewarding break and look forward to seeing them return re-energised and ready to reach their goals for Term 4 and beyond!

Anthony Salpietro

Year 9 Coordinator

Year 10 Coordinator Report

What an unbelievable year we have had so far. Despite all the disruptions, the Year 10's have made great progress and are certain to have a strong end to 2020.

2020 Leaders

In Term 1, Form Captains and Junior Leaders were selected to represent their peers throughout the year. The Junior Leaders attended a Leadership Training Excursion lead by the Student Services Team, and the

Form Captains worked closely with me to come up with innovative ways to connect with the year group. In Term 2, we managed to hold a virtual RACER assembly, wherein the Form Captains scripted, prepared and recorded a video assembly. They have also been working on delivering Form quizzes to educate their peers on different themes and encourage some fun, inter-Form rivalry.

Congratulations to the following students on being selected, and the work they have done already this year.

Junior Leadership Team

Anthony Beros, Luci Breen, Aiden Lougheed, Jennifer Storey, Ethan Tsapazi and Tamika Ward

Form Captains

A – represented by Rhys Bawden

B – Isabel Upson

C - Tahni Francis-Hardie

D - Ryley O'Neill

E – Kiara Hughes

F – Jasmine Gerard

G – Caylei Dear

J – Bella O'Neill

K – James Lodge

L – Lachlan Gilchrist

M – represented by Logeshwari Subban

N – Joshua Rogers

P – Jarrad Jacques

Q – Hannah Fewster

I would also like to recognise all of the amazing Year 10's in the Peer Support programme who have been helping our new Year 7 stuents transition to High School since the start of the year.

RACER and Form

The first 'in person' RACER assembly took place in Term 3. It was wonderful to be able to see the whole year group together again. It also gave us the opportunity to recognise the winning Form from Semester One, as well as some amazing students who have been recognised for their efforts with the receipt of a Year Coordinator award.

Semester One Winning Form

Congratulation to Mr Humm's Form, Form 10P for being the Semester One, winning Form. They held strong in the ongoing Form Quiz competition, but took the lead with their 'Hangman' results in the Term 2 RACER video competition.

Year Coordinator Awards

Term 2 recipients – Tahni Francis-Hardie, Ffion Bishop and Johnny Martin.

Achievement Assembly

At the start of Term 3, we were able to recognise students' efforts in their Semester One reports. We were unable to award Excel awards as students had not received grades, but we were still able to award Engage and Care awards to some amazing Year 10 students.

Subject Selections

The Year 10 students had a busy and important start to Semester Two, looking towards their futures, and life after school. Students have locked in their Upper School Subjects, and many are excited about the opportunities that lie ahead. Some students are applying for TAFE, some are preparing for University and many are already gaining valuable work experience both in and out of school.

Laetitia Riches

Year 10 Coordinator

Year 11 Coordinator Report

During their first year of Senior School, the Year 11 students have done an incredible job and have excelled in the subjects they chose to study. This was evident at the Semester One Achievement Assembly on the 3rd August where a number of students in both ATAR, General and Certificate subjects received awards for their academic achievement and effort. The workload that comes with studying six subjects in Senior School has been quite demanding on the Year 11 students, requiring them to organize themselves regularly, communicate more effectively with their teachers and work collaboratively with their peers. The final weeks of school for the Year 11 students are not far away and I encourage the students to stay committed to their studies and finish the year strongly.

Leavers Jackets

Back in Term 2 the Year 11 Student Council helped organize and design the Year 12 Leavers Jacket for 2021. After working through design options, they narrowed them down to a few and the year group voted in their favorite design. The orders for the Jackets have been finalized and we expect the jackets to arrive for the students their final day of school in November.

Year 11 River Cruise and Year 12 Ball

The Year 11 Student Council and Ball Committee have been busy during Term 3 planning for the river cruise and the Year 12 Ball. The river cruise took place on the 22nd September and took the students down the Swan River from Barrack St Jetty to Fremantle and back. The student councillors helped organize the music playlist as well as promote the event. The Ball committee have also been working on the theme for the Year 12 Ball in 2021. The 8 members have been putting together ideas for ballroom and table decorations along with theme names.

Year 12 Student Council

During Term 3 the school ran a process for selecting the 2021 Year 12 Student Councillors. A total of 23 students nominated themselves for the position. Successful candidates wrote up their manifesto's to promote themselves to the school. On Tuesday the 22nd September an election will take place (run by the electoral commission) to determine the 12 successful candidates. These 12 student councillors will be eligible to run for Head Boy and Head Girl in 2021. I wish all the candidates the best for the upcoming election.

James Buchanan

Year 11 Coordinator

Year 12 Coordinator Report

The final term for the Year 12 students has without a doubt been one of the busiest, with students using their time of face-to-face contact to best prepare for the upcoming exams, whilst ensuring they are actively participating in a range of school events.

Although the Inter-House Athletics Carnival is a school-wide event, the Year 12's are given the spotlight on this day. They all came in their fancy dress outfits and showed their fun and creative sides. This year, the parade had some familiar and peculiar characters including; Snow White and her (….his) Seven Dwarfs, London chavs, convicts, bacon and eggs, The Adam's Family casts, and even a homicidal bride. Not only did the students come dressed so well, they also adopted the personas of their characters, making the 100m sprint that much more interesting, with even an emergency paramedic skit taking place at the end. On the day, I was particularly proud of the number of students that participated in the events, as well as helping to support the BBQ, whilst promoting school spirit and encouraging their younger peers to compete.

The event truly highlighted that the end is here. As the students head off for study leave and for the WPL placements, I would like to wish them the very best as they wrap up the final stages of their secondary education.

Next term, the students will be partaking in their WACE exams, the Ball, The Final Assembly as well as the Presentation Evening and I look forward to continuing the celebratory moments as we farewell the Class of 2020.

Inter-House Athletics Carnival

Inter-House Athletics Carnival

The annual Inter-House Athletics Carnival was held on Tuesday the 8th of September with Argonauts, Spartans, Olympians and Trojans competing it out for the mantle of 2020 Athletics Champions.

Argonauts have been the dominant force in Athletics, champions for the past six years. They were once again very strong battling it out with Trojans right to the end of the day, the 4 x 100 relays proved to be

the deciding race. This year it was Trojans who finished victorious, ending the Argonauts very impressive winning streak. Spartans and Olympians rounded out the minor placings.

Well done to everyone who got involved and supported their House by competing in as many events as possible. Congratulations also to the individual champions for 2020, an excellent achievement. Winners and runners up will receive their medallions at their next year group assembly.

Jack Lomman (Year 11) and Brianna HoyPoy (Year 12) were the winners of the prestigious Duncraig Dash (fastest Year 10-12 student).

The Duncraig Physical Education team are all about promoting participation whilst having fun, so it was excellent to see students getting into the spirit of the day. Thanks also to all of the staff for their contributions and work on the day.

Over 100 students will now have the privilege to represent Duncraig Senior High School at the Inter-School Athletics Carnival. Congratulations to all who are selected, have a great day and give it your best for the school.

The Athletics carnival is the best time of year to show your House Spirit, and to represent your team. Congratulations to Trojans for finally breaking Argonauts long lived winning streak! - Laetitia Riches

It was fantastic to see the students involved, having fun and creating a sense of community around the day. From the students dressing up in their House colours, participating in events, cheering on their peers and helping out and assisting with the running of events on the day. Congratulations to all students who participated and helped out on the day. - James Buchanan

It's a highly rewarding day, as regardless of athletic ability, students are able to contribute towards and engage in an amazing event. Thank you to each Student who participated on the day and to the Physical Education Department for running the event. - Anthony Salpietro

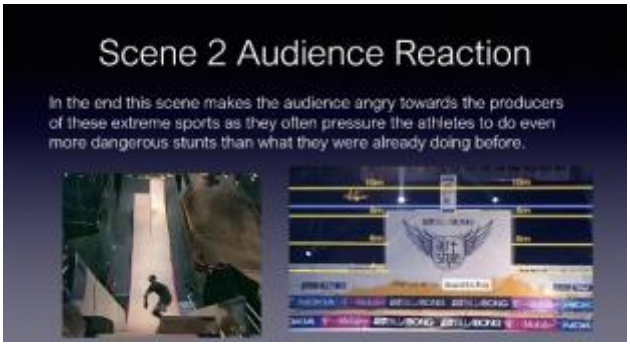
News from English

Year 11 English General - Documentary Study

This term the Year 11 students watched *The Crash Reel*, a documentary focusing on the recovery of Kevin Pearce after a snowboarding accident when training for the Olympics, which left him fighting for his life. We created PowerPoints including discussing the issues, documentary techniques and the audience's response shown in a scene of our choice from the film. We then created a speech and

presented it to the class in pairs. I enjoyed watching the documentary and then seeing everyone's presentations on their chosen scenes. We enjoyed being apart of Kevin Pearce's journey and we hope that one day we will achieve as much as he has.

By Nikita Curtis

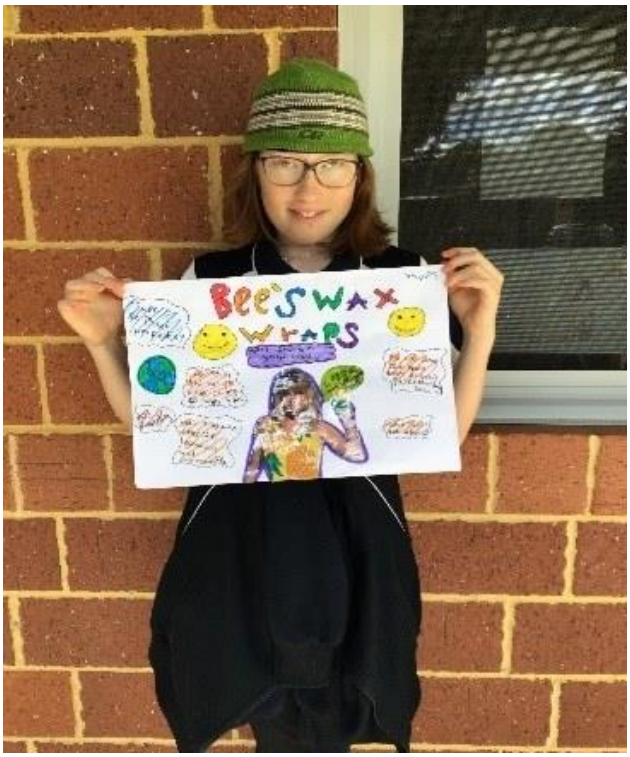


Year 8 English - Advertising

I hope you are all ready to buy some products in the future as we have some great sellers amongst the students. This term the Year 8's focused on advertising and have created their own advertisements. Students began by learning how to persuade their audience by learning persuasive techniques and how to target a certain audience. They then began creating their masterpieces and sharing their product advertisements with their peers. This has brought out many creative artists and sellers amongst the cohort. We look forward to sharing some of these adverts in the Library.

By Miss Clarkson

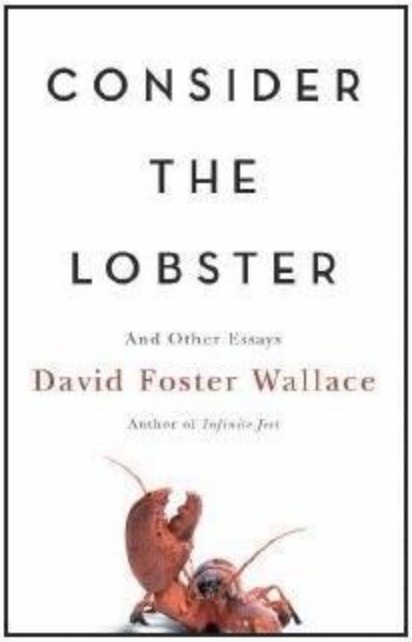
RED
SCARY



Year 9 SBAE English

This term we have covered film studies with the movie *The Hunger Games*, as well as informative feature articles. For *The Hunger Games*, we performed a presentation on the cinematic and theatrical techniques that were used to show different effects, as well as analysing the movies themes and meaning. Some of the themes we covered where revolution, rebellion, love, loyalty, and compassion. We enjoyed watching and analysing the film but did not like when Miss Clarkson made us go up and present the PowerPoint presentation we made. For the informative feature article, we read papers such as "*Consider the Lobster*" and *"The Last White Rhino"*. These were both written to challenge social and ethical issues such as the ethics around killing and cooking lobsters and poaching wildlife. All the students in the class are very confident and passionate about their opinions on certain issues like this, which makes this a great topic for us to study.

By Ryan Byers and Ronan Corboy



Year 7 General English - Drama Performance

As soon as the teacher said we were to be performing a scene from a play, I felt excited. We got to pick our groups and we were allocated a good scene and were arguing over who was to play what. I wanted to play Donkey because there were plenty of lines. Unfortunately, I wasn't the only one with the desire to play Donkey. After three rounds of Rock, Paper, Scissors, I was to play the role of Shrek.

Next, we annotated our scripts with highlighters and pens. Once they were perfect, the teacher let us practice in the activity area or on the lawn outside the classroom. We practiced and planned our performance until it was tattooed into our brains. We needed props for when Fiona cooks eggs and Shrek cooks weed rats. I made the props and some Shrek ears for my costume.

The big day had come for students to perform in front of the class. Unfortunately, half of the group members were absent, so we were to perform on another day. There were some groups who were brilliant. I think we were up there as one of the better groups who performed, in our class.

It was nice to do a practical activity and get out of the classroom to do something different. I enjoyed practicing because my group enjoyed working together and had a few laughs. We also had the chance to build our confidence and public speaking skills. It was an interesting learning experience.

By Jasmine Gregory

News from Humanities and Social Sciences

Having settled into a normal routine this term after an interesting start to the year it has been pleasing to see our Year 7's, 8's, 9's and 10's fully engaged in their studies of Humanities and Social Sciences. Thankfully our Upper School students were also able to settle back into their studies of Modern History, Psychology and Economics soon after that 'minor' disruption. Exams for them now loom…

Given that HASS studies the world around us and our place in it, students have been able to use skills they have developed in class to reflect on how the COVID-19 pandemic has impacted upon the social, economic and political spheres at local through to global levels.

Year 8 students studying Medieval Europe are aware the Black Death was a significant contributor to the end of the Feudal System. With students applying the historical concept of 'cause and effect' it is interesting to now hear them discussing those 'big' questions they are encouraged to create and consider in HASS. With this in mind they are pondering what short and long term affects COVID-19 will have on our society. What elements will continue and what will change?

Again, it has been another busy and productive year and we are amazed that we will soon be entering the final term of the school year. I'm sure that the entire school community share this astonishment as to how quickly 2020 has progressed. Our students need to maintain positive attitudes towards their studies as we enter Term 4 very soon.

Year 8 Castle Construction Activity

In Term 3 students have been studying Medieval Europe. As part of the course we investigated major developments and causes of change in the studied time period. One of the focus points was construction of Castles! Over the course of one week students were challenged to construct their own medieval castle in groups of four. They had to ensure their concentric or stone keep castles featured all the defensive features and architectural designs of the time. Students took this challenge quite seriously and were able to produce outstanding castles.

Year 9 Stock Market Game

The Year 9 Gifted and Talented class have played the Stock Market Game this term. While the world's share prices have plunged they have discovered how hard it is to predict what will happen in the economy when a global crisis strikes. With $50,000 to invest, each team chose a variety of shares with the aim of making a short term profit. A very small number of teams are currently holding onto a profit but most have lost a significant part of their investment. They are now aware that short term gains in the Stock Market are very hard to make and that in times of crisis it is best to leave your wealth in cash!

HASS Week 2020

HASS WEEK 2020

Earlier this term the school celebrated HASS Week. Various staff members from the HASS Department organised a number of exciting activities for students to engage with that allowed them to further recognise the importance of studying Humanities and Social Sciences. All Lower School students were able to participate in some of these activities towards the end of the week.

Year 7

The Year 7 students supplemented their studies of the Ancient World by enjoying activities that involved making laurel wreaths as worn by the Ancient Greeks, Roman Legionnaire helmets, and creating and painting an Ancient Egyptian sarcophagus.

Year 8

This year for HASS Week, we collaborated with the Arts Department to explore the world in the Medieval Age. As with the Year 7 students, these activities supported the Year 8's with their studies in HASS this term - investigating Medieval Europe and the Black Death. Students had an incredible opportunity to get an insight into the deadly plague that struck Europe in the 14th Century. They learnt about the bubonic plague and the symptoms, the flagellant movement, the plague doctor and various medieval medicines. Year 8 students made plague masks, flagellant whips, Lego castles and stained glass as well as having buboes painted on their hands. It was wonderful to see the Year 10 and 11 Art

and Drama students helping out as make-up artists and listening to the interaction between them as they worked.

Year 9 - QR Competition

Our Year 9 students competed in a QR competition that saw them search for codes throughout the school, download the clue and answer questions correctly in order to find their way to the next

clue. Working in groups they scoured the school grounds, googled possible responses, begged for additional information to decipher the clues and generally had a great time.

Year 12 Modern History ATAR

On Wednesday 19th August the Year 12 Modern History students welcomed Ms Razija Poznovia to our classroom. Ms Poznovia, as someone who was an eye-witness to the breakup of the Former Yugoslavia, provided the students with an interesting insight into the events that led to the Balkans Crisis and the details of some of the incidents that arose as a consequence. Students empathised with Ms Poznovia when she told the class how she was determined not to have her son fight in a war she disagreed with. She succeeded in this by managing to get him out of the conflict zone. The Year 12 Modern History class were grateful to Ms Poznovia for coming into our classroom and supporting their studies of The Changing European World Since 1945.

The HASS Department would like to take this opportunity to say goodbye to Ms Jenna Wright who is leaving us temporarily at the end of this term to begin a new adventure elsewhere. Ms Wright is a friendly, personable member of the school staff who has been integral to the success of our Psychology program and we will miss her while she is gone. We do hope to see her back in 2022!

In finishing, the HASS Department would like to wish the Year 12 students, especially those studying Modern History, Economics and Psychology, the very best in their upcoming Mock Exams. We encourage all those students to revise, prepare thoroughly and make contact, where possible, with their subject teachers during the Study Break to resolve any issues regarding their Courses prior to sitting the exams. Good luck to all students involved!

Mr Chris Pring

Teacher - Humanities and Social Sciences

News from Mathematics

Term 3 has seen things return to mostly normal, with our classes able to get-together for group activities. This has seen a number of exciting activities taking place behind the hollowed mathematics doors.

The Year 12's are currently in full revision mode, in preparation for their Semester 2 Examinations. The ATAR examinations this year are from Monday 2nd to Friday 20th November. The Mathematics Applications and Mathematics Specialist exams are on Monday 9th November and the Mathematics Methods is on Thursday 12th November. The Mathematics Learning Area wishes all students the best for their exams. Study hard and please remember to ask for help if needed.

At the end of Term 2 our lovely Stephanie Green moved to Margaret River SHS. She has now settled in at her new school and is keeping us posted on her south-west adventures. Alex Raszkawajski has very ably stepped into her (very sporty) shoes for Term 3. The middle of Term 3 saw Kate Ananda take maternity leave in preparation for the birth of her first child. We very are excited to let you know that Kate and her husband Ananta have had a beautiful little girl. and thanks to Ben Chapman who has been doing a wonderful job looking after Kate's classes during her leave.

Year 9 GATE / SBAE Mousetrap Cars

The Year 9 GATE and SBAE classes have been hard at work following the design process to develop their own Mousetrap cars. Their brief was as follows:

- To research, investigate, design and create a Mousetrap car and evaluate your overall creation.
- Your goal is to create a Mousetrap car that can travel the furthest distance possible.
- You are to work in groups of 2 for the project, where each group will create one Mousetrap car and submit a single report.

The classes thoroughly enjoyed the project and the photos below show the enthusiasm shown by the Year 9 participants.

Year 8 G&T / SBAE Finksa

The Maths Department has been inundated by FINSKA! No, it's not some alien invasion, it's the Maths game that's taking the world by storm (well, our Maths Department anyway!).

This outdoor and addictive Finnish log throwing game is a race to exactly 50 points, Finska has a special ability to bring family and friends (and Maths students) of all ages together for a good old fashioned contest at the park, the beach, the front office lawn or in your own backyard.

The Year 8 GATE and SBAE classes were given the task of adapting the rules of the Finska game to incorporate different mathematics operations. Some groups became very mathematical, testing the abilities of the others with their high order rules; using indices, fractions and sometimes operations completely foreign to the others in their quest to provide the most exciting experience. Again, great fun was had by all….

Year 7 G&T / SBAE Vitruvian Man and Maths Amazing Race

Vitruvian Man….who on earth is he? You may not know his name, but you will definitely be familiar with the diagram of a naked man with arms and legs outstretched in a circle. It is a famous Leonardo da Vinci drawing and it is meant to represent the ideal dimensions of the human body.

One of the features of this picture is that the arm-span is equal to the man's height.

The class were tasked with this question - is this true for the members of our class? Measurements were taken and collated and students completed an individual project and also, in groups designed a poster on The Vitruvian Man. We'll show you some of their awesome designs in our next newsletter, so stay tuned!

Now that restrictions have relaxed, the classes were able to get together for another Maths Amazing Race. In teams, students completed maths problem solving questions in a race situation. It was a fun, manic afternoon enjoyed by all. The final question from the Amazing Race is our parent question this term. First correct response wins a prize.

Year 8 Neuroscientist Visit

The Year 8 students had a couple of exciting scientist visitors from UWA, Darren Clarke and Alex Tang, both ex-DSHS students. Darren and Alex explained how science (and maths) makes a difference in the

world and shared scientific careers and opportunities with the classes. It was a great opportunity for the students to think outside the box when it comes to their own future careers in science.

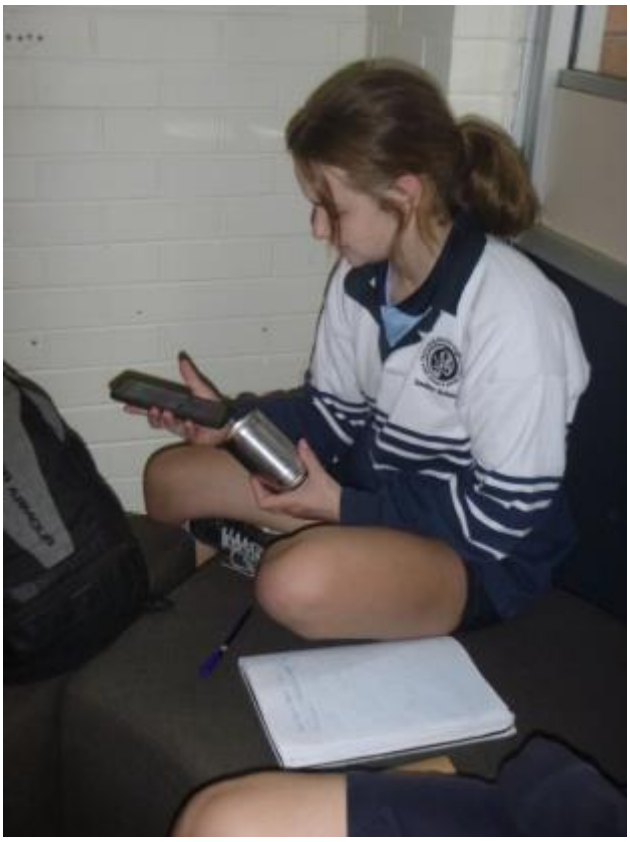
Year 10 G&T / SBAE STEAM Passive Speaker Project

The below statement was put to the students prior to starting this exciting project:

People like to share music and videos using their phones in different social situations. To do this, sound must often be amplified.

How can we build a portable amplifier that passively amplifies the sound produced by our smartphones?

Again, students used the Research, Investigate, Design and Create and Evaluate and Communicate process for their project. The last day of the project saw all projects communicated to others and a lot of fun (and STEAM insight) was had by all.



Australian Mathematics Competition

Duncraig SHS sat the AMC in the first week of August and students should be receiving their results shortly. We will be celebrating the successful students during the Term 4 Mathematics Achievement Assembly.

The AMC is an engaging 30-problem competition that demonstrates the importance and relevance of mathematics in students' everyday lives; it is open to students in Years 3 through to 12. Australia's leading educators and academics, with a deep understanding of our national curriculum standards, actively design the unique AMC problems each year.

The AMC is run by teachers in schools. The competition is fully online, with a paper version of the competition also available.

ICAS

The International Competitions and Assessments for Schools (ICAS) is held annually, covering a range of specific areas of study, including: Digital Technologies, Science, Spelling, Writing, English and **Mathematics**.

The competitions are run by the Education Assessment Australia through the University of New South Wales Educational Testing Centre and are now for Primary students from Years 2-7 in most subjects. They provide opportunities for students to be assessed in an external testing situation and are also used to recognise and reward achievement.

Duncraig SHS Years 7, 8 and 9 GATE and SBAE students sat this test in the first week of September. Results will be out later in the year and we will commend successful students at our Achievement Assembly.

Once again, we encourage you to make contact with your child's Mathematics teacher if you have any queries at all regarding their progress or the course content.

And here's another Parent problem to solve. This time one of the problems solved by the Year 7 GATE/SBAE students in the Maths Amazing Race:

Maze 100

In this maze there are numbers in each of the cells. You go through adding all the numbers that you pass. You may not go through any cell more than once.

Can you find a way through in which the numbers add to exactly 100?

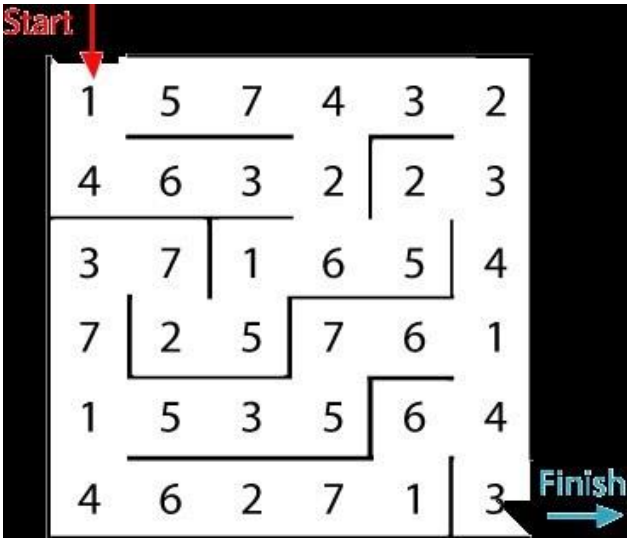
What is the lowest number you can make going through the maze?

What is the highest number you can make going through the maze? (Remember you may not go through any cell more than once.)

Please email solutions to Jodi Bavin (2IC Mathematics) at Jodi.bavin@education.wa.edu.au. First correct parent answer will win a yummy prize.

Wendy Field

Head of Learning Area - Mathematics



Les Nouvelles du Département de Langues

On behalf of the French department we would like to wish all of our Year 12's good luck in the upcoming exams. These French students have made so much progress since they were in Year 8, and Ms Riches promised them a cheese hamper if they made it through Year 12 French (motivation – not bribery!).

We hope they enjoy their cheese, and continue to embrace foreign languages and cultures beyond their academics.

News from Drama

Ballet Barres

We are very excited to announce that Duncraig Senior High School is now the proud owner of three professional Ballet Barres! The Pickering family, owner of Overboard Café, was kind enough to donate the funds received from running the foyer during our 2019 production of 'Footloose'. Former DSHS students Amy and Jemma Pickering have been invaluable contributors to the school, with Jemma volunteering her time to choreograph the productions and Amy managing the backstage logistics during the season. These will not only be a valuable resource for our performing arts students but will also serve as a memento of Amy and Jemma's contribution to Duncraig SHS. Dance students have already had a ball using this equipment and we would like to thank the Pickering's for their generous donation and support.

Lougeroom Project

During the COVID-19 period, WA Youth Theatre Company offered our students a free online program called 'The Loungeroom Project', which allowed young artists to engage with the arts in an online format.

This project gave students the opportunity to learn from and train with professional artists in a range of theatre and performance making skills. Participants were encouraged to create a short piece of work 'in their lounge room' using whatever and whoever they have with them at home. The final submissions were then judged by Narelda Jacobs, Iain Grandage, Eva Grace Mallaley and Hayley McElhinney.

It is with great pleasure I announce that Year 9 student Charlie Hunt is a top 10 finalist! The finalist submissions will be uploaded to YouTube and the top three videos that receive the most 'likes' will be awarded a cash prize of $300!

Well done, Charlie! Goodluck!

Don't forget to vote!

Design Workshops

Our Upper School Year 11 & 12 Drama students were lucky enough to take part in a practical design workshop offered by Black Swan State Theatre Company. Led by Artistic Designer Lawrie Cullen-Tait, students had the opportunity to explore the role of designer and the responsibilities that a designer undertakes as part of a professional production team.

The workshop assisted students in realising the imaginative world of their set text 'A Midsummer Night's Dream' and creating dramatic effects onstage using handmade models.

We are also looking forward to running more workshops next term with our Year 9 Drama students. They will be invited to participate in a full day performance workshop by Into the Mask Theatre Company to explore the world of Commedia Dell'Arte!

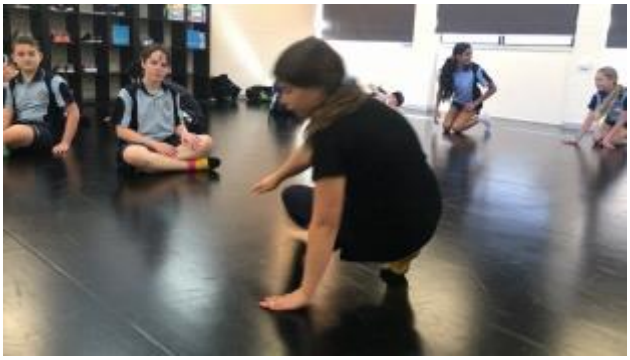
News from Dance

Year 7 Break Dancing

The Year 7's have been working hard in dance class with Miss K developing upper body strength through push-ups and planks to be able to work towards refining some challenging break dance skills. These have included the 'C-C', knee-sweep, 'baby freezes' and the 'helicopter'. Some brave Year 7 students will be dancing at our Dance Showcase on Saturday 17th October where you will be able to see these mighty skills!



https://sway.office.com/fDctFJdTHNClB5sF#content=WiTxNdWT4lwh2s

Certificate II Dance Showcase

On Wednesday 2nd September Miss Woolfrey and the Year 11 and 12 Dance students performed a variety of choreographic pieces for a selection of adoring teachers. Students missed an opportunity to have a Semester One Concert, and their teachers were delighted to see them perform.

The Year 11's and 12's will get a second opportunity to perform to family and friends at the 2020 Dance Showcase on Saturday October 17th.

News from STEAM

The Australian Brain Bee Challenge (ABBC) is a competition for High School students in Year 10 to learn about the brain and its functions, learn about neuroscience research, find out about careers in neuroscience and to dispel misconceptions about neurological and metal illnesses.

The program was started in Australia in 2006 to address a number of deficiencies in the public's perception of science in general and neuroscience in particular.

The ABBC provides current and accurate information on the latest advances in neuroscience research, its value to the community and to promote careers within science and technology.

Round One was held during Brain Awareness Week. The learning content is a series of online modules wtih content developed by brain science experts from the Australasian Neruoscience Society and implemented in a strong educational framework by education designers and teachers of the Education Perfect team. Unfortunately due to COVID-19 Round Two was not allowed to take place as this would have involved an excursion to UWA. Congratulations to Marc Labouchardiere, Kathryna Bedico and Vithusayan Mokhanarajah who participated in Round One and would have been invited to UWA for Round Two.

Scitech - Science Café

On August 29th Mr McClements and eight Year 10 students (Leah C, Katherine G, Jess H, Holly M, Aidan H, Marc L, Dante M and Lewei X) went to Winthrop Hall at UWA to participate in this years' Science Café.

Science Café provides students with the unique opportunity to speak one-on-one with STEM professionals from a variety of backgrounds to gain practical knowledge about careers in STEM.

In the afternoon, students gained an insight into the pathways for pursuing STEM beyond high school by engaging with current STEM undergraduate students, all whilst networking with other high school students - their future STEM colleagues.

WIMWA Summit 2020

On Friday 11th September Tameika M, Caitlyn G, Isabel U, Kathryna B, Jordan B, Rhianna, Oliva B, Elyssa G and Logshwari S participated in the WIMWA Summit.

The WIMWA Summit is a great opportunity to raise awareness for STEM opportunities in the resources industry for students while showcasing the amazing roles that are available for women in STEM. The students participated in a series of events online.

Carla Hickey a STEM Professional working for Rio Tinto, was Duncraig SHS's visiting industry representative interacting with our students throughout the Summit.

Activities included sessions from ESWA with Jo Watkins, SciTech with Alyshia Gatani, a Growth and Innovation Session with Candis Rhodes and a presentation about Shortcuts to Learning with Dr Stef Burns.

News from VET

Try A Trade Programs

The Try A Trade programs are proving to be extremely popular with the Year 9 students. This term fifteen Year 9 students attended the 3 day Try A Trade and four Year 9 students attended a 1 day Try A Trade at NECA in Joondalup. These programs are designed to give students an insight into to the Electrical industry – career pathways and the skills required to be successful in this industry.

Two Building and Construction Try A Trades will run in October and November for 3 days at Trades North in Clarkson (North Metro TAFE). These programs will highlight bricklaying, tiling, plastering and carpentry. Expression of interest for Year 9 and 10's has been advertised in the SEQTA notices.

Thank you to The Construction Training Fund for sponsoring these programs.

Year 12 VET Lunch

Year 12 External VET Students were invited to attend a VET Recognition Lunch which included a presentation from a past student who was a Duncraig SHS VET DUX in 2011 – Mason Burton.

The students were recognized for their hard work and commitment with a pizza and Krispy Kreme lunch followed by the presentation. Mason was able to share his journey from leaving Duncraig SHS including his challenges on the way to achieving his current fulltime employment. A very enjoyable and enlightening presentation for the students.

MEGT Presentation

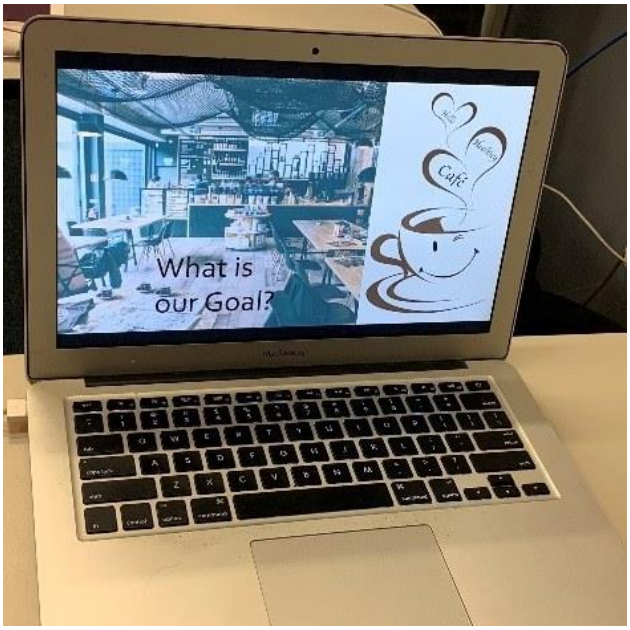
A huge thank you to Nicole Hughes from MEGT who gave a fantastic presentation to our General/VET Year 12 students during a Monday flexi-time session. Nicole gave the students an excellent insight into the current world of work – particularly apprenticeship and traineeship opportunities, giving students excellent advice and pointers on presenting for an interview. Nicole also offered students help when applying for specific job opportunities. Very valuable information for our school leavers.

Certificate IV in Business at Fremantle Education Centre - Student Business Expo

As part of the Certificate IV in Business qualification delivered 1 day per week externally by Fremantle Education Centre (FEC), students were asked to create a "Business" and everything to go with it. They had to come up with a product and produce samples; design a logo; produce promotional material – including an information brochure and business cards; run meetings with their group members – allocating responsibilities for different areas of the business.

Students representing Duncraig SHS this year were Liam Bryant and Ryan Kerslake. Liam and Ryan worked with students from other schools to establish their business model "Hello Healthy Café" - a café designed to assist with mental health counselling in a relaxed, supportive environment. A great effort boys!

Hello
Healthy
Café.
Hello
Healthy
Café.



What is
our Goal?

One Day A Week Training Courses For 2021

Congratulations to all of the year 10/11 students who have completed applications for the 1 day per week courses available for 2021. Non-ATAR students had the opportunity to apply for numerous courses ranging from Building and Construction, Auto, Beauty, Hospitality, Business and Health Services.

Some students are still involved in the selection processes which include aptitude testing and interviews. Good luck to these students!

Successful/unsuccessful notification of placements will commence in term 4.

If any vacancies become available for courses – they will be advertised in the Daily Notices on SEQTA….so please read them every day!

There are still positions in some of the Fee for Service Courses (vary in cost from $1200 to $5000 per course). If you would like to find out more about these courses, they are on the SEQTA VET portal page (or come to the VET office for more information).

Please be aware that 50% of fees must be paid once an application has been accepted and the remainder paid before the commencement of the course.

City Beach School Based Traineeships (SBT's)

Congratulations to Meg Quinn and Maisie Jacobson who have been successful in their applications for an SBT placement at City Beach Murray Street and Whitfords stores. Both girls applied online and completed interviews before being selected. Meg and Maisie will be completing a Certificate III in Retail whilst completing paid work 1 day per week at their allocated store. The traineeships will last 12-18 months.

School Based Traineeships are advertised in the SEQTA notices as they become available. They are a fantastic way to "Earn as you Learn"!

Year 12 Certificate II in Community Services

AT LAST! The Year 12 Certificate II in Community Services students have been able to visit the local kindergarten, where they engaged with children in various activities. Thank you to Hillary's Community Kindergarten for welcoming us.

Ms Griffiths

Teacher In Charge - Home Economics

News from Music

Although this year has presented many challenges, we have been forced to find new ways for our music students to continue with learning and performing their music.

Due to the COVID-19 restrictions, our regular performances were cancelled. This included our Winter Concert in Term 2, and the band, jazz and guitar festivals in Term 3. We also had to cancel our trip to the Rhapsody Rotorua Music Festival in New Zealand.

To give our students the opportunity to perform the pieces they have been rehearsing since the beginning of the year, a 'virtual concert' was held in our performing arts theatre and the performance was captured on video and a high-quality sound recording made. Thank you to Mr Blakeley and his students for their efforts in recording and editing the video, which will be edited together with the sound recording to create, what we hope will be, a close representation of our usual live performance.

Many thanks also to our ensemble directors; Sabina Ibrahimbegovic (guitars), Claire Nankivell (Junior Band) and Lauren Reece (Jazz Band) for their efforts in preparing for and directing these performances. Parents and students will be given access to these recordings once they have been completed. The guitar ensemble recordings will also be put to good use as entries in a virtual guitar festival, giving our students the opportunity to have their performance adjudicated by internationally acclaimed composer and educator, Paul Svoboda.

Our Gala Concert, which was originally scheduled for Week 10 of Term 3, has been moved to October 28th in the hope that restrictions will be lifted and the concert will be able to go ahead as usual in the Performing Arts theatre here at Duncraig SHS.

Our final concert is still scheduled for the final week of school, and we hope that this will go ahead without any problem.

Performing Arts have been particularly affected by the COVID-19 restrictions, and it is still too early to plan for next years' performances and events. We hope that all will return to normal as soon as possible and that we will again be able to have parents and friends attending performances at school and elsewhere without restrictions.

Peter Smith

Teacher in Charge - Music

Innovative Teaching and Learning

STEM4Innovation Showcase

Our Year 9 Gifted and Talented Education students showcased their creativity, entrepreneurship and critical thinking at the STEM4Innovation showcase held at John Curtin College of the Arts earlier in the term.

STEM4Innovation is a unique collaboration between schools, Curtin University and industry focused on providing generate authentic learning experiences for WA school students to apply STEM-inspired, curriculum-linked, design-thinking processes to solving real-world problems relating to the immediate and future impacts of COVID-19 and other community related needs in Western Australia.

Our Year 9 team made it through to the Finals, where they had the opportunity to pitch their innovation to distinguished guests including Dr Fiona Wood (Fiona Stanley Hospital) and Jemma Greene (Chief Innovation Officer, City of Canning.) The boys did an outstanding job!

Music Production Club

A group of creative students who share an interest in both creativity and technology are thoroughly enjoying themselves in the Music Production Club, a new offering to Duncraig's co-curricular opportunities.

Students in the MPC meet on Wednesdays after school to learn music production with Mr Drew Mayhills, our Innovative Teaching and Learning Coordinator who also has a background in music production.

Students have been exploring the fundamental principles of sound, synthesis and remixing with Ableton Live, an industry-standard digital audio workstation (DAW).

Several students have recently finished some of their first compositions and released them into the world via streaming platforms like Spotify and Soundcloud. The MPC is a supportive, creative community and all students are welcome to come along.

Microsoft Innovative Educator Export (MIEE) Program

Congratulations to four of our staff – Ms Pamela Konijn, Mr Connor Humm, Mr Paul Zampogna and Mr Drew Mayhills – on being hand-picked by Microsoft Education to join the globally-recognised Microsoft Innovative Educator Expert (MIEE) Program for 2020-2021. Here's what Microsoft had to say:

"You have been chosen as an MIE Expert because you are self-driven, passionate about your work, have true collaborative spirit, and strive to inspire students with outside-the-box thinking on technology in education. We appreciate your resourcefulness and entrepreneurial spirit. As agents of change, you have achieved excellence in education, using technology and social media for good. We are grateful for the opportunity to tap into your enthusiasm and enable others to benefit from what is clearly your passion. "

What makes this particularly special for Duncraig Senior High School is that we are now the proud home to more MIEE-certified teachers than any other public school in Western Australia – the best is yet to come!

News from Cadets

Yanchep National Park

The Bush Ranger Cadet Unit completed field work at Yanchep National Park, this involved environmental work and instruction by the Rangers. Cadets helped plant native vegetation, remove exotic weeds and mulch garden beds, they also attended workshops including Indigenous Education, Carnaby Cockatoos, Lake and Wood ecosystems and the role of limestone in the environment.

In what was excellent weather the Cadets participated enthusiastically. They were entertained by the Indigenous Educator on his didgeridoo and mixed limestone powder with vinegar to simulate weathering. Cadets also encountered fauna including koalas, ducks, tortoises and kangaroos. One or two Cadets also took home a little surprise, a tick. They were warned to check carefully. The ticks after all did not have excursion forms.

Applying First Aid

Sixteen Senior Cadets and two Instructors completed their Royal Life Saving Applying First Aid course on Saturday September 5th. This course involved competing modules of study and testing online prior to the day, including a 55 question exam. On the day the group were exposed to practical skills and assessed for competence, this included bandages, wounds, choking, fractures, accidents, sprains and strains, heart attacks and strokes. We were equally entertained by a participating Phys Ed teacher well known for his over energetic acting the part including the amputation of his hand (fake). The group is now qualified and take their place in the Unit ready to assist others.

Year 12 Leavers Information

Leavers WA will be held Monday 23 to Thursday 26 November 2020. Because of COVID-19, the Leavers program in the South West will take on a slightly different feel this year.

It is important to note that there is no accommodation remaining for Leavers 2020 in the Southwest region. Police advise do not travel down South unless you have accommodation confirmed.

Parents and students should download the free Leavers App or visit the LeaversWA official website for the latest information on events, getting around, and tips to stay safe. The app will also send you up-to-date notifications on what's happening at your Leavers location while you're there.

Congratulations and Good Luck!

Congratulations to Year 11 student Ali Nasiriy who on the 17th of July 2020 received his Recreational Pilot's licence (RPL).

Ali started flying at the age of 12 and built his hours getting experience in light aircraft. When Ali turned 15 he completed his first solo flight and has now received his RPL licence. This enables Ali to fly without any supervision outside the airfield and also have the right to carry passengers flying with him. Ali's next step will be getting his Private Pilot's licence (PPL) in the months ahead. Good Luck Ali.

Term Four Highlights

For full calendar please see our website.

Monday 12 October - First day of Term Four

Thursday 15 October - Year 12 School Ball

Saturday 17 October - Dance Showcase - Kingsway Christian College

Monday 19 October - Year 12 Final Assembly

Wednesday 28 October - Year 12 Presentation Night - Perth Convention and Exhibition Centre

Monday 2 November - Year 12 WACE Exams commence

Monday 2 November - Year 11 Exams commence

Friday 13 November - Pupil Free Day

Friday 20 November - Year 11 Final Assembly

Monday 23 November - Year 9 and 10 Exams Commence

Monday 30 November - Year 8 Exams Commence

Tuesday 1 December - Year 7 2021 Orientation Day

Tuesday 1 December - Year 7 2021 Parent Information Night - 6pm to 7pm

Monday 14 December - Years 7 to 10 Student Reward Day

Monday 14 December - Summer Concert - 6pm to 7.30pm

Tuesday 15 December - Achievement Assemblies

Thursday 17 December - Last Day of Term

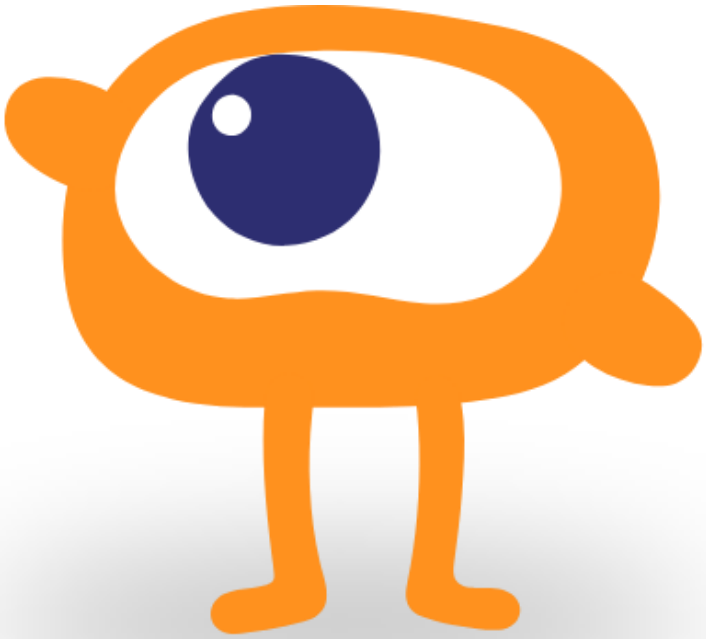
Beacon Cyber Safety App



Telethon Kids Institute and Bankwest are proud to deliver Beacon - a cyber safety educational app designed to keep parents and carers up to date with trusted, tailored information, to help keep their kids safe online.

Beacon is designed specifically for parents as a personalised, one-stop-shop for reliable information about the online world. It arms parents and carers with the knowledge they need to confidently help navigate their children's digital behaviour and reduce harms we know are associated with being online.

Beacon will shine a light on the online world with:

- Articles and videos backed by the latest research
- Tailored content and alerts, unique to your family needs
- Create your own family agreement
- Help and services that are available to you and your family
